HONORING THE AMERICAN FLAG: HOW TO RETIRE IT WITH DIGNITY

Every precaution should be taken to prevent the flag from becoming soiled. When a flag is in such a condition, through wear or damage, that is no longer a fitting emblem for display, it should be destroyed privately in a dignified manner.

The flag should **NEVER**

1. Be tilted (dipped) even momentarily to any person or thing. Regimental colors, State flags, organization or institutional flags may be tilted as the mark of honor.
2. Be displayed with the union down except as a signal of distress.
3. Be carried flat or horizontally, but always aloft and floating free.
4. Be displayed on a float, motor car or boat except from a staff.
5. Be allowed to touch the ground or floor, or brush against objects.
6. Have objects placed on, over it, or be used as a covering for a ceiling.
7. Have any mark, insignia, letter, work, figure, picture or drawing of any nature placed upon or attached to it.
8. Be used as a receptacle for carrying anything, or be used to cover a statue or monument. If used in connection with unveiling ceremonies, it should not serve as a covering of the object being unveiled.
9. Be used for advertising purposes or have advertising signs fastened to its staff or halyard.
10. Be embroidered on such articles as handkerchiefs or cushions, or be printed or otherwise impressed on boxes.
11. Be used as a costume or athletic uniform or part of one.
12. Be used as drapery of any sort whatsoever, never festooned, drawn back or up in folds, but always allowed to fall free. Bunting of blue, white and red—always arranged with the blue above, white in the middle, and red below—should be used for such purposes of decoration as covering a speaker's desk or draping the front of a platform.

FEATHER FLAG ACCESSORIES

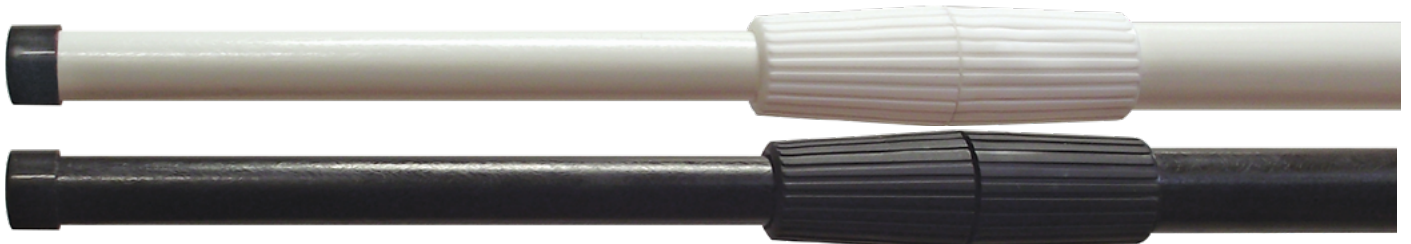

FEATHER & TEAR DROP ACCESSORIES

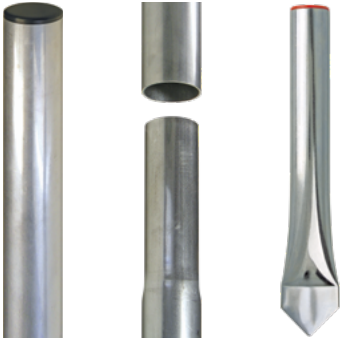

TELESCOPING SUPERFLEX™ POLES

For 12' x 26" feather flags

These fiberglass flagpoles sway in the breeze producing a dramatic, attention-getting display. Available in both 15' and 21' exposed height sizes. The 15' pole is adjustable from 6' to 15' while the 21' pole is adjustable from 8' to 21'. Poles come with 21" PVC ground sleeve and easy-to-follow instructions.

ALUMINUM FEATHER FLAGPOLE

For 7' x 17" feather flags

This set comes with a two section 1" diameter silver mill finish pole - a 4' bottom and a 5' top plus a galvanized steel fabricated lawn socket. The top of the pole is capped with a plastic top plug to protect the top of the Feather Flag from premature wear.

Item #	Ht.	Color	1-11	12+	Lbs.
324185	9'	Silver	\$57.00	\$53.00	1.6

REPLACEMENT GROUND SLEEVES FOR TELESCOPING SUPERFLEX POLES

Item #	Length	Price	Lbs.
324187	21"	\$13.00	.30

TEAR DROP FLAG ACCESSORIES

TEAR DROP POLE IN-GROUND MOUNT

Once installed in the ground, the Tear Drop Flag Pole slips over a rotating spindle. The Tear Drop Pole In-Ground Mount measures a total of 23-3/8" long, with 16" of length under the rotating spindle.

Item #	1-5	6-11	12+	Lbs.
155528	\$64.00	\$61.00	\$55.00	3.2

TEAR DROP FLAGPOLE

These continuous tapering, flexible black fiberglass flagpoles measure 14' when fully assembled. The bottom measures 1" and tapers to 1/4" at the top. This 3-piece pole swedges together perfectly and all swedge points are reinforced with stainless steel fittings. Pole is rubber tipped to prevent flag damage. Comes complete with heavy-duty, black canvas carry bag.

Item #	1-5	6-11	12+	Lbs.
155527	\$138.00	\$132.00	\$114.00	3.7

TEAR DROP POLE SURFACE MOUNT

This rotating base can be permanently mounted or can be temporarily held in place with a heavy-duty water donut. When filled, the water donut holds 2-1/4 gallons of water and weighs 18-1/2 pounds. This water donut installation should only be used when winds do not exceed 5 m.p.h.

Item #	1-5	6+	Lbs.
155529	\$111.00	\$107.00	8.6

CUSTOM PRINTED FLAGS AND BANNERS

Any design and quantity can be printed using our direct print digital/dye sub process. The possibilities are endless with no limit on colors or types of image.

Outdoor flags up to size 6' x10' are finished standard with heavy duty canvas header and two brass grommets. On 8' x 12' and larger flags will be finished with roped header and thimbles.

Other finishing options are available upon request.

ARTWORK REQUIREMENTS

For a prompt approval process please provide the following:

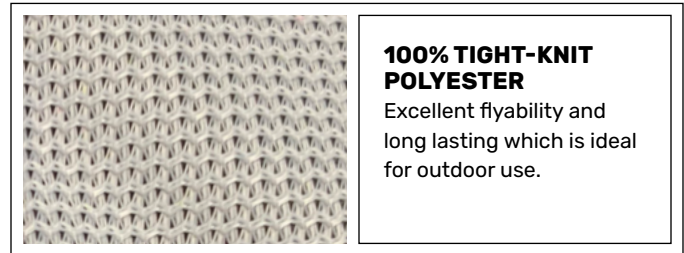

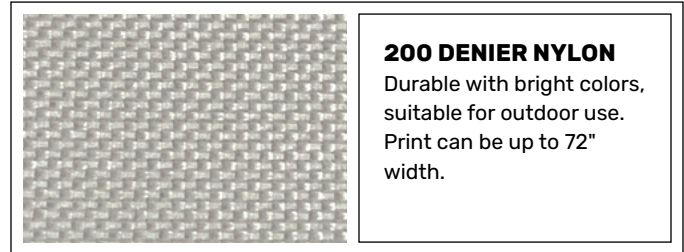

- ✓ For a clean printed image Vector art is required
- ✓ All fonts and strokes are outlined
- ✓ Spell checked for errors and proof the art
- ✓ For maximum color match include solid coated Pantone® colors

• Note: undefined process colors may not print as previewed

Preferred and accepted file formats for artwork submission:

MATERIAL OPTIONS

PRINTING OPTIONS

SINGLE REVERSE

Printed on front side with full ink penetration. On the reverse side, the image will appear backwards.

DOUBLE-SIDED

Two flags printed and sewn together back to back with a heavy duty block out liner in between.

CRAFTED FOR VIBRANT, LASTING BEAUTY

At Eder Flag, we've been expertly handcrafting appliqué flags and banners for generations. Our skilled artisans bring your logo or design to life – whether it's a small piece or a jumbo showstopper. Let us transform your vision into a bold, high-impact display that stands out.

APPLIQUED FLAGS

Appliqué is a method of layering fabric on top of fabric for the most vibrant and colorful display. The quality and detailed artistry of these flags exceed any printing style. These unique stitched flag creations are designed and hand-crafted with the finest workmanship in the industry. With appliqué, our expert sewing team individually assembles and stitches each item.

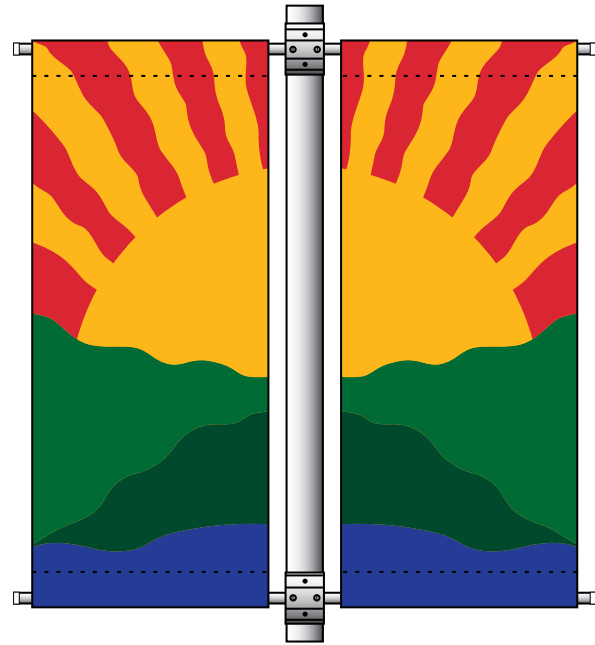

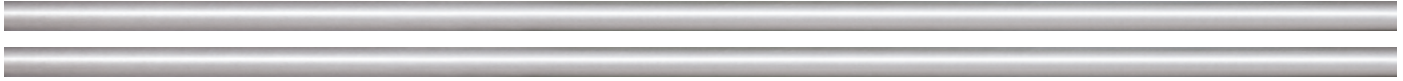

Custom Appliqued flags are individually hand-sewn using 200-denier nylon or 2-ply polyester. Appliqué is for indoor or outdoor flags, corporate logo flags, table banners, parade banners, or any other flag or banner. It also offers the opportunity to enhance existing flags or banners. Appliqued years or names can be added without producing a new banner.

ORDERING AND PRICING GUIDELINES

- Dealer must provide completed vector art before quoting for all custom appliqued items.
- Make requests and questions via email only to customdepartment@ederflag.com.
- No quantity minimums at this time.
- All sales are final – there is no cancellation once the order is processed.
- Eder reserves the right to decline to quote.
- Lead times will vary depending on the project and production schedules.
- Prices are valid for 30 days from the date of the completed quote.

DELUXE BANNER ARM MOUNTING SETS

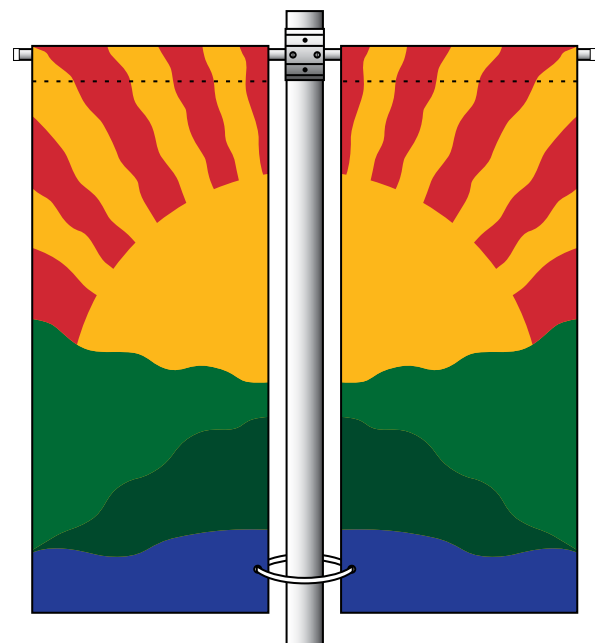

Each set contains cast aluminum mounting bracket(s) with stainless steel mounting straps. Crossbars are fabricated from 1-1/2" outside diameter clear anodized aluminum poles with white end caps for a finished look. Ideal for round poles. For square poles, see U-Bolts on [page 98](#).

DCA MOUNTING SETS

Each DCA Mounting Set is designed for use with a pair of banners with pole hems at both the top and bottom. Priced per set.

NEVERFURLS

With NeverFurl® you can fly your flag all day long, every day of the year, and the wind will never wrap your flag around the flagpole. The NeverFurl® kit is easy to install and comes complete with everything needed including instructions and detailed drawings. No additional tools are required.

The design of the NeverFurl® device allows each rotator to work independently with the wind by moving up and down and rotating around the pole thereby eliminating flag wrapping. Works with all flag sizes regardless of changes in wind speed or wind direction.

OUTDOOR FLAGPOLES

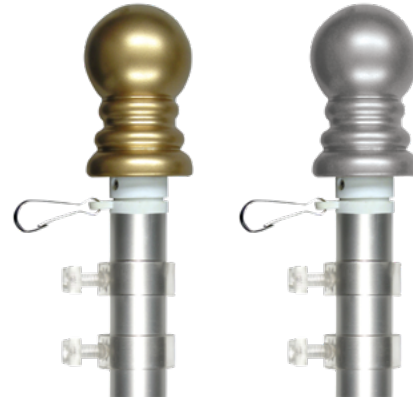

RESIDENTIAL FLAGPOLES

ALUMINUM ANTI-FURL ROTATING POLES

These 2-piece poles are available in a anodized aluminum, white painted or wood grain finish. The top of the pole rotates on ball bearings so the flag won't tangle. There's no need for an unfurling tube.

These poles come with 2 flag fasteners (for flying a grommeted flag) and a snap (for flying flags with a pole sleeve and tab). Use with brackets that accept a 1" outside diameter pole (not included). All poles are supplied with a gold ball ornament except item number 324207.

FLAG ETIQUETTE

HOW TO FLY THE AMERICAN FLAG

The flag should be raised and lowered by hand. Never raise the flag while it is furled; unfurl, then hoist quickly to the peak of the flagstaff. It should be lowered slowly and ceremoniously. The flag should never be allowed to touch anything beneath it, such as the ground or the floor.

The flying of the flag at half-staff is a sign of mourning. When flown at half-staff, the flag should be first hoisted to the peak, then immediately lowered to the half-staff position. It should be raised to the peak again for a moment before it is lowered for the day. "Half-staff" is the point midway between the top and bottom of the flagstaff. On Memorial Day in May, the flag should fly at half-staff from sunrise until noon, and at full-staff from noon until sunset.

At sea services by Navy chaplains, the church pennant may be flown above the flag.

No other flag may be flown above the United States flag except at the United Nations Headquarters. The UN flag may be placed above flags of all member nations. In the UN enclave, national flags of all members are flown with equal prominence.

When the flags of two or more nations are displayed together they should be flown from separate staffs of the same height, and the flags should be of approximately equal size. International usage forbids the display of the flag of one nation above that of another in time of peace.

1" DIAMETER ALUMINUM DISPLAY POLE SETS

- Includes 2-piece aluminum pole, gold vinyl ball ornament, 2 flag ties & aluminum lawn socket

9' X 1" ROTATING POLE WITH LAWN SOCKET

This white painted aluminum 2-piece pole includes 2 flag fasteners (for flying a grommeted flag), a snap (for flying flags with a pole sleeve and tab), and a galvanized steel lawn socket. The top of the pole rotates on ball bearings so the flag won't tangle.

Item #	Size	1-11	12-35	36+	Lbs.
324178	9' x 1"	\$75.40	\$66.10	\$62.70	3.8
